Re: *United States v. Robert Hunter Biden*, No. 1:23-cr-00061-MN (D. Del.)

Dear Attorney General Garland:

I write to associate myself with the comments and concerns expressed by the State of Louisiana and other states delivered to you earlier today. As my fellow attorneys general described, questions related to the scope and thoroughness of the Department's investigation and the appearance of differential treatment of Mr. Biden raise significant concerns about the Department's handling of this matter. It is essential that the Department uphold the time-honored tenets of our justice system. Regrettably, in Mr. Biden's case, significant deviations from conventional practices appear to have occurred, calling into question whether those tenets were fairly applied in his case.

Sincerely,
